

# Holesim PlayaPutt™

Practice or play anytime, anywhere, on your own or with friends.

The PlayaPutt portable hole plays from any direction, challenging your accuracy and pace just like a real hole. Keep one handy in your bag or drawer, then try different positions on the green, or play a few holes in your coffee break or at home with the kids. While a Pro can appreciate the realism, it gives everyone accessibility and fun. PlayaPutt allows any golfer to play more and improve their game, and as leisure product for the family PlayaPutt makes a fantastic gift.

The patent pending PlayaPutt system consists of a very thin round steel base with a white regulation size 'hole' painted at its center. Suspended flaps trap the ball providing 360° hole access, and with no ramps to deflect the ball PlayaPutt delivers the most realistic portable putting experience available.

- Practice and realistic 360° play
- For Pro or Amateur
- Fun for the family
- Play indoors or outside all year round
- Compact, light and portable
- Set up/take down in seconds
- No batteries required
- Flag number decals 1 to 9 included
- Great for parties and events
- Extensive marketing opportunities
- Base or flag can be personalized
- Great corporate gift
